Face waxing is a very simple option to improve your appearance immediately- brows, lip, chin, nose, neck, sideburns. Our waxing professionals use a French, paperless wax, that guarantees a comfortable, almost painless experience even for the bikini area! We trim and shape brows for women and men - any age! Susan is our Waxing Queen and is especially skilled at introducing waxing to teens - always encouraging a youthful, natural look.

Even a once a year treatment can make a big difference in slowing your aging process.
