**Beso** - hint of subtle pink

**Muse** - absolutely easy pink for every season

## Lipsticks...

As we get ready to enter Spring, something happens, and we want a new color lipstick. We want lipstick with a little more color, a little more pop, a little more something.

Lipstick is something you cannot buy without trying on. Everyone's coloring is unique. If you put on a lipstick that your friend or sister has on, it will look very different on you. Everyone's color has either cool or warm undertones.

Carie can guide you as to which undertones will look best on you. Maybe buy a new lip shine, lip gloss, and a new lipstick to add to your spring wardrobe. It is a great way to change it up!

**Necklace stacking** is a popular jewelry trend with three pieces the most effective number. The key is to appear casual, so do not have the same distance between pieces. Popular
